Consent for Emergency Medical Treatment:

I realize that occasionally throughout the school year, children are injured or ill enough to warrant emergency medical attention and that sometimes parents are not available by phone to give prompt permission for treatment. In an effort to expedite emergency treatment for my child in such an event, I authorize Forsyth School District to secure emergency medical aid from trained school personnel and the local ambulance and/or first responder services. I understand that this is applicable only in acute medical emergencies and in situations where delay of treatment is inadvisable.
